PROFESSIONAL SUMMARY

Full Stack Developer with practical experience in designing and developing scalable web applications using Java, Spring Boot, React, and Hibernate. Skilled in RESTful API development, ORM, and responsive frontend design. Familiar with Agile methodologies, version control (Git/GitHub), and SQL/NoSQL databases. Seeking to contribute to dynamic teams and deliver high- performance software solutions

EDUCATION

Pillai College of Arts, Commerce and Science| Panvel, India Bachelor of Science | August 2022 - April 2025

- GPA: 8.90

Citizen high school Uran | Uran, India Higher Secondary Certificate (HSC) | August 2020 - June 2022

- Percentage: 76.30%

SKILLS SUMMARY

- Languages: Java, C#, JavaScript, Python, SQL, PL/SQL, HTML, CSS
- Frameworks: .Net, Spring Boot, Hibernate, Flask, Bootstrap, Angular
- Libraries/Tools: React, Turn.js, Styled-components, Git, GitHub, ThreeJs
- Database: MySQL, SQL Plus, PostgreSQL
- Platforms/IDEs: Visual Studio Code, IntelliJ IDEA, Eclipse, PostMan

WORK EXPERIENCE

JAVA FULL STACK INTERN | QSPIDERS | Vashi, India | April 2024 - June 2024

- Designed and developed key features for a dynamic web application using a tech stack including Hibernate and Spring Boot.
- Authored and optimized complex SQL queries that automated data reporting, reducing manual report generation time by an estimated 25%.

CYBER SECURITY ANALYST | EYEQDOTNET | Remote | April 2024 - June 2024

- Developed and implemented a password strength checker using modern algorithms, enforcing strong password policies for 1000+ users and enhancing overall account security.
- Authored a technical security report detailing key system vulnerabilities and recommended mitigation strategies, which were adopted by the development team.

PROJECTS

Spend-Wise | Expense Tracker | [\[GitHub Link\]](#) | October 2025 - November 2025

- Built a secure, user-friendly expense tracker web application using .Net MVC , Syncfusion and MySQL.
- Delivered clear financial insights by implementing historical expense tracking and categorization, enabling users to analyze spending patterns and manage daily budgets effectively.

Nova-Chat | Gemini Clone | [\[Website Link\]](#) | May 2024 - June 2024

- Built a responsive, Gemini-style AI chatbot UI using React.js, featuring dynamic routing and a scalable frontend architecture.
- Designed an intuitive chat interface with real-time message rendering and an adaptive layout optimized for both desktop and mobile viewing.

Farmora | Farmer's Market Platform | [\[GitHub Link\]](#) | November 2023 - January 2024

- Developed a secure, scalable agriculture marketplace using Spring Boot, implementing role-based access with Spring Security and Google OAuth2 for authentication.
- Engineered a dynamic product management module with full CRUD functionality, enabling 50+ farmers to manage inventory in real-time, including image uploads and category selection.

CERTIFICATES

- Java Programming for Complete Beginners (Udemy) | May 2023
- Git GitHub GitLab Fundamentals (Udemy) | May 2024
- Front-End Web Development (IBM SkillsBuild) | August 2025
- Java Full Stack Developer (JSpiders) | October 2025

ACHIEVEMENTS

First Prize | Moneta CodeCruX Competition | December 2023

- Successfully developed Farmora, an innovative platform connecting customers directly with farms, showcasing strong technical expertise and creativity.
